

ST105D

5-Port Fast Ethernet Steel Switch

Easy Network, Trustable

OVERVIEW:

Netis ST105D provides 5 100Mbps adaptive ports. It is very suitable for small and medium-sized office use, for more network environments, and supports long-distance transmission, being faster and more stable.

With steel housing, ST105D performs better in heat dissipation. It is also easy to manage and maintain, meeting users' networking requirements for easy management of network devices with high security and low cost. ST105D can be used in network access scenarios such as monitoring systems, small and micro enterprises, school dormitories, and SOHO offices. Its Plug and Play feature allows you fast network access without configuration.

KEY FEATURES:

- 5*10/100 Mbps adaptive ports
- LED: 6 sapphire green LED indicators
- All ports support Auto MDI/MDI-X
- Plug and play without configuration, energy-saving
- Power supply: 5V/800mA

SPECIFICATION:

HARDWARE	
Interface	5* 10/100M RJ45 adaptive port
Forwarding rate	10/100Mbps
LED	PWR, 1-5 RJ45 Port
Standard Protocol	IEEE802.3,IEEE802.3u ,IEEE802.3x
Operation mode	Half-duplex, full-duplex modes Auto-negotiation modes MDI/MDI-X auto-adaptation
OTHER	
Dimensions	100*65*22.55 mm(L*W*H)

Environment	<p>Operating Temperature : 0℃ ~ 40℃</p> <p>Operating Humidity : 10% ~ 90% RH non condensing</p> <p>Storage Temperature : -20℃ ~ 70℃</p> <p>Storage Humidity : 5% ~ 90% RH non condensing</p>
